

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service for my
tracphone or the phone cards for myself and my family!

I urge you to reject the flat fee proposal that would change how
contributions are made to the Universal Service Fund. This
proposal would make my current service unaffordable especially
as I am on a fixed income. I do not have long distance on my
phone now, due to the unreasonable costs.

Under the flat fee proposal you are considering, people who make
few long distance calls would pay the same as people or
businesses that make many calls. In other words, low-volume and
primarily residential customers would bear the same universal
service fund burden as a high-volume residential or business
customers. This is UNFAIR!

I use my wireless phone for safety, security and convenience
ONLY. I don't want to lose these benefits so that big businesses
can pay less than their fair share. Reject the proposal to move
the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Mary Davis
